To help you generate your article review, complete the following learning log tasks:

**Learning Log Task 1:**
Write a summary (200-250 words) of your journal article.

**Learning Log Task 2:**
Identify the writer’s thesis.

**Learning Log Task 3:**
Identify the support the writer presents to argue his or her thesis.

**Learning Log Task 4:**
Evaluate the support the writer presents—Does the writer answer all the questions raised by his/her thesis? Does the writer answer potential counterclaims against the thesis?

**Learning Log Task 5:**
Compare the thesis of your position paper to the thesis of the article. Do the theses compliment each other or present contrasting viewpoints?
